**Subject:** Proposed Soil Sampling Locations map  
[planned soil sampling locations \(4\).pdf](#)

Attached is the revised Soil Sampling map for your review. Please keep in mind that these locations are approximate and may be moved based on field observations of surface runoff pathways, etc. Please let me know if you are good with it. Mike Sherron advised me this AM that the last utility issue (OH Twp.) called him last night and they are clear for utilities in that area. I do still need drawings for the site. We will get this going this AM if we do not get delayed by the road block issue.

Thanks.
